Oakstone

If there was ever a landscaping product inspired by nature then Oakstone is it. Perfectly capturing the look of a wooden sleeper, Oakstone is available in a dark wood or weathered colour and is ideal as a path, patio, edging for a raised bed or scattered casually around the garden.

Technical Info:		
Product Depth	Size (mm)	Pieces Per M ²
Oakstone 50mm	800 x 220	5.68

Welcome

This premium quality range of paving products uses moulds to recreate the look and feel of natural stone. Using raw materials from our own quarries and the world's most modern manufacturing facility you can be sure that our products meet the highest quality standards. Whether your style is old world and rustic or urban-chic and modern, you'll find it in the Stonescape range. Create stunning spaces with our design service, where our team of leading landscape designers will work with you to ensure that your vision comes to life.

We look forward to helping your ideas take shape...

Cambridge Circle

Our Cambridge circular pattern has been created to reflect the rugged character and rustic charm of natural limestone. This is a versatile choice that works wonderfully in either a 'county cottage' look or something styled on a more urban theme.

Our special squaring kit allows you to house your Cambridge Circle in a square patio area.

Technical Info:	
Product Depth	Diameter (mm)
Cambridge Circle 38mm	2400
Cambridge Circle Squaring Kit 38mm	2700 x 2700

Please note: Squaring Kits are not sold separately.

➤ Our Design Service

With an extensive choice of textures, colours and shapes to choose from it's hardly surprising that you might find it more than a little daunting to bring your vision to life. A well designed space will not only give you years of satisfaction, but also add value to your home.

The good news is that we've a team of qualified, creative and inspired designers who would love to help your ideas take shape. And the better news is that should you choose to run with our paving, our design service will be FREE.

➤ Installation

Laying paving products is a skilled service. A professional paving contractor or landscaper can recommend colours, complementary products, suitable laying patterns and more. When choosing a professional to lay your paving you should exercise a degree of commonsense before making your decision. Ask straightforward questions and look for some basic reassurances:

- Check how long the company has been laying paving products.
- Ask for some recent references of work undertaken. A reputable contractor will be delighted to show off recent work. Don't be too embarrassed to make a phone call or call in person to a previous customer – either way, you won't regret it.
- Ask for a written quotation before work commences and make sure you go through it in detail. Ask questions such as if skip hire and jointing sand is included?
- Check if the contractor has the appropriate liability insurance.
- A reputable contractor will expect their work to be of the highest standard and to last accordingly. They should have no problem guaranteeing it – so ask them to.

Please note: Kilsaran cannot guarantee or warranty the workmanship of any paving contractor or installer. Our paving products should be installed in accordance with the standard BS 7533, which is the code of practice for laying pre-cast concrete paving blocks to suit the relevant traffic conditions. More information on BS 7533 can be found at www.bsigroup.com. We would also recommend that you check out www.paving.org.uk, the website of Interpave, the Pre-cast Concrete, Paving and Kerb Association.
