Suitable for use in temperatures between +3°C and +30°C. Mix with clean potable water to achieve a workable homogeneous mix. KPRO Roof Tile mortars should be used in accordance with BS 5534.

Technical Data

KPRO Roof Tile mortars are produced in an ISO 9001 quality-controlled environment to the requirements of BS 5534.

Characteristic	Data value
Proportion of Constituents	1 part cement : 3 parts sand
Compressive Strength	12 N/mm ²
Tensile Adhesion Strength	> 0.15 N/mm ²

Benefits

- Consistently high-quality mix
- Eliminates inaccurate site mixing
- Available in a range of colours
- Consistent colour
- Convenient and User-Friendly
- Eliminates wastage
- Promotes cleaner and safer sites

Approximate Yield

No. per 25kg	Liner metres
1	6-6.25

Application Temperatures

+3°C to +30°C

Health & Safety

Please refer to the relevant Material Safety data sheet online at www.kilsaran.ie.

Pack Size

- 25kg premixed bags
