Features

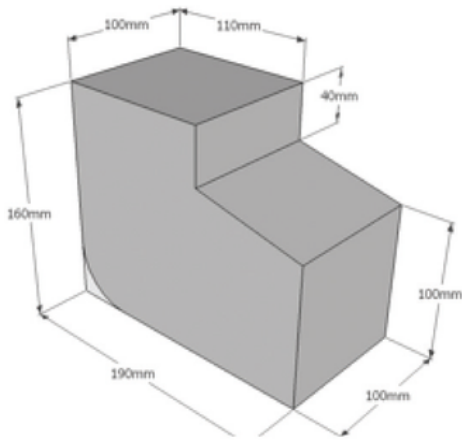

- Kerb sett unit which can be laid in either high rise or low rise profile to give a different appearance
- Corners are not available for this product type
- Suitable for domestic and commercial schemes

Benefits

- Kerb setts bring flexibility to any landscaping project, with the option of high-rise or low-rise profiles to achieve the look and function you need.
- High-rise kerb setts provide strong edge restraint and bold visual definition—perfect for areas where a more prominent boundary is desired.
- Low-rise kerb setts offer easier access, making them ideal for spaces regularly used by wheelie bins, prams, lawnmowers, and shopping trolleys.
- Designed to perform in both straight and curved layouts, the smooth kerb sett units effortlessly enhance the look of any outdoor space.
