Features

- · Concrete Block Paving
- Can be laid in herringbone, stretcher bond and basketweave pattern depending on use
- Various depth options available for different traffic loadings
- Face-mix product to create an enhanced surface finish and better durability
- Available in 6 standard colours
- Ease of installation and shape allows for different patterns to be created, providing interlocking strength

Benefits

- Extremely robust due the increased cement content and Granite surface
- Unlike Natural Granite and Porcelain, the Kileen Block Paving keeps the declared slip resistance of extremely low throughout its life cycle
- Cost reduction on supply and installation when compared to natural Granite and Porcelain

200x100
