Colour: Raven & White  
Finish: Rumbled  
Mortar: Grey

**Colour and Blending**

All of the products manufactured by Kilsaran Lifestyle are manufactured using high quality photo stable pigments in a quality controlled manufacturing process. Although the latest photographic and imaging technology is employed by Kilsaran, it is strongly recommended that you make your colour choice from actual samples of the product and not from photos. Samples can be provided from our Display Centre and Showrooms at the address below and Authorised Stockists. A number of units should be viewed together or a sample panel constructed to confirm selected colour. This is particularly important for multi coloured products. Due to the nature of the product some slight colour variation may occur from one unit to the next. Careful blending by selecting alternate units from at least 3-6 packs during construction is essential to give an even blend of colour and a high quality finish. The full quantity required for your project must be advised to Kilsaran Lifestyle at ordering stage, failure to do this may result in the balance of your order being supplied from a different production batch for which Kilsaran Lifestyle can accept no responsibility.

## Technical & Performance Data

<b>Product Type</b>	Manufactured stone concrete brick	<b>Constituents</b>	Aggregates, cement, additive and colour pigment
<b>Product Standard</b>	IS EN 771-3	<b>Configuration</b>	Solid unit - no voids
<b>Manufacturing Method</b>	Hydraulically pressed semi-dry concrete	<b>Durability</b>	Concrete unit - Not frost susceptible
<b>Packaging</b>	Baled, strapped and plastic cover	<b>Gross dry density</b>	≥ 2150 kg
<b>Strength</b>	Above <10N/mm	<b>Water Absorption</b>	≤5%
<b>Finish</b>	Smooth finish, rumbled finish, split face finish	<b>Unit Weight</b>	3.2 kg

## Sustainability

Kilsaran is committed to leading the way in the industry with sustainable and environmentally friendly products, manufacturing processes and continual product development.

**All of our products are manufactured using industry leading best in class manufacturing facilities, reducing the impact our products have on the environment, as showcased with our newly awarded ISO 50001 certificate**

Throughout our paving products we endeavour to replace 50% of the ordinary Portland cement with a high quality carbon neutral cement replacement Ground-granulated blast-furnace slag (GGBS), use 100% recycled water and locally sourced quality materials.

Making Kilsaran's extensive paving range, one of the most environmental friendly on the market.

## Maintenance and Cleaning

Kilsaran recommends regularly cleaning on an annual basis is performed, for more information please contact our technical team or download our Maintenance and Cleaning document from our website.

### TECHNICAL SUPPORT

Help with the preparation of specifications using any of Kilsaran's hard landscaping products, including design, BIM and NBS is available through our dedicated technical team and regional sales office.
